

A-M

CAPICORDA CON ATTACCO CONTENUTO

per interruttori automatici B.T.
per cavi in rame

File no. E125401

Aventi le medesime caratteristiche dei capicorda tipo A-M, questi capicorda sono caratterizzati da una ridotta larghezza di patella d'attacco.

Sono stati studiati e realizzati appositamente per il collegamento di apparecchiature che hanno morsetti dimensionalmente non adeguati ad accogliere i capicorda di normali dimensioni.
